

Current Project Status Report

Based on the code analysis of core/, models/, crud/, and lib/:

◆ Epic 1: The SaaS Foundation (Current Focus)

Goal: Secure the backend so "Tutor A" cannot see "Tutor B's" data.

ID	Feature	Status	Evidence / Analysis
1.1	Tenant Database Schema	✅ DONE	Done
1.2	API Gatekeeper	❌ CRITICAL TODO	Groomed pls check separate doc for its status
1.3	HTTPS	❌ TODO	App works without cleartextTraffic hack.

◆ Epic 2: Content Management (Backend Logic)

Goal: CRUD operations for the functional sets.

ID	Feature	Status	Evidence / Analysis
2.1	CRUD Logic	✅ DONE	Verified crud_content.py and crud_quiz.py. The logic to Save/Read content exists and accepts tenant_id.
2.2	Seed Scripts	✅ DONE	Verified scripts/seed_content.py. You have a robust script to generate dummy data for testing.

◆ Epic 3: White Labeling (The Look)

Goal: Dynamic theming.
